"SHRINERS HOSPITALS FOR CRIPPLED CHILDREN
San Francisco, California
January 13, 1933

"Mr. Herbert Fleishhacker, President,
Board of Park Commissions,
City and County of San Francisco,
#1 Sansome Street,
San Francisco, California.

"My dear Herbert:

"I am herewith enclosing two checks made payable to the Park Commission, one in the amount of $500.00, the other in the amount of $250.00, as per our conversation of last Tuesday.

"In connection with this game I want to bring some facts before your Board that should have some bearing on the remission of this rent for this particular year for our Hospital. Our net profit out of this game this year will be between $16,000 and $17,000 as against last year of $35,000. The service this Hospital renders to the City and County of San Francisco in taking care of these crippled children saves our tax payers a considerable sum of money which is furnished by the Shriners throughout the United States. The cost of maintaining this Hospital is about $80,000 per year. The San Francisco Shriners of Islam Temple contribute about $20,000 per year from the assessment of $2.00 that they pay for its maintenance, the balance of the money comes from all over the

"United States. In addition to this, the $80,000 covers about $40,000 paid in salaries and wages, and $40,000 to merchants in San Francisco for goods purchased for its various departments of operation. We have just contracted to add a wing, which is under construction, that will cost us in the neighborhood of $41,800. This gives employment to a considerable number of people in San Francisco and all material used is purchased in San Francisco.

"In view of the above facts, I am asking that this years rent of the Stadium be waived so that we will have this money to use for the above purposes.

"Thanking you and your Board for all the co-operation that you have given us in the past and in appreciation for what you may do for us now, I am

Yours very truly,

(Signed) John D. McGilvray

Chairman of Local Board of Governors."

It was the unanimous opinion of the Board that the rental of Kezar Stadium in connection with the 1933 Shrine East-West football game be Five Hundred Dollars ($500.00).

Secretary instructed to request Mr. Joseph R. Hickey to prepare a complete report of Stadium operations and costs in conjunction with Superintendent McLaren, for presentation to the President of the Board, in order that a definite policy and schedule of charges for charity games may be established by the Park Commissioners.

San Francisco, California.

"Dear Captain Lamb:

"I received a letter from Mr. Meyer Rosenberg informing me you and Mr. Worden stated the matter of his claim had been referred to me and that you are awaiting my reply. As I view it, and I believe I explained to you personally, the work done on the racetrack in Golden Gate Park was of the value of $10,710.34, of which $10,000 was paid by the Board of Supervisors. The payment of the additional $710.34 is certainly a moral obligation, if not a legal one. The question has already been raised as to whether or not the Board of Supervisors was justified in appropriating the proceeds of the bond issue for this purpose; however, it has been done, and, I understand, with the approval of the Controller.

"This claim, in my opinion, is just as valid a claim as that which was liquidated by the payment of the $10,000.00. I think, if approved by the Controller, the money should be paid out of the Park Commission funds. The work was certainly for the benefit of the Park Commission and done as much at the request of the Park Commissioners as at the request of the Board of Supervisors.

Very truly yours,

WILLIAM F. HUMPHREY."

Pres. Herbert Fleishhacker
Com. William F. Humphrey
Com. M. Earl Cummings
Com. George Tourny
Com. John Gallwey

Minutes Adopted:

The minutes of the previous meeting, copies of which were sent to each Commissioner, were duly adopted as the minutes of the regular meeting held January 19, 1933.

Bicycle Course for Park & Great Highway:

The question of bicycling in public parks was next discussed by the Board.

President Fleishhacker then notified the Commissioners that Section 45 of Ordinance of the Park Commissioners No. 1, New Series, adopted June 13, 1918, made adequate provision for the designation by the Commissioners of such courses or trails for cyclists as may be needed in or around any of the public parks, squares or pleasure grounds.

President Fleishhacker also informed the Board that in order to prevent accidents to all frequenters of Golden Gate Park and the Great Highway in his opinion the designation of a cycling course in Golden Gate Park and along the Great Highway, for use on Saturdays, Sundays and holidays, was necessary at this time.

Superintendent McLaren then recommended that a bicycle route be created, for the exclusive use of cyclists on Saturdays, Sundays and holidays, as follows:

From the entrance of Golden Gate Park at Waller and Stanyan Streets, along the South Drive westerly to the intersection of the Water Works road near Tenth Avenue;

thence westerly along the Water Works road to its intersection with the South Drive in the vicinity of Fourteenth Avenue; thence westerly along the South Drive to its intersection with the Transverse Road connecting Nineteenth Avenue in the Sunset with Twenty-fourth Avenue in the Richmond District; thence northerly along this Transverse Road until its intersection with the Middle Drive; thence along the Middle Drive until its intersection with the South Drive at Thirty-eighth Avenue; thence along the South Drive to its intersection with the Great Highway; thence either along the footpath running in an easterly and westerly direction from the South Drive to the Beach Chalet, or across the Great Highway to the upper footpath on the westerly edge of the Great Highway, thence southerly along this footpath to the parking space west of the Fleishhacker Pool;

That the part of the Middle Drive so designated and also the Water Works road be reserved exclusively for cyclists on Saturdays, Sundays and holidays;

That on the sections of the South Drive where bicycles and other vehicles are apt to mingle three traffic lanes be formed and clearly defined by white marking lines, motor vehicles to use the middle lane only and bicycles to use the outside lanes;

That no parking be permitted at any point on the South Drive where these traffic lanes are designated;

That the entire route be adequately signed and proper barricades be created at each entrance of the Water Works road and at the entrance to the designated part of the Middle Drive;

That on the Great Highway pedestrians be requested to use the lawn instead of the footpath.

Superintendent McLaren presented a map with his recommendations outlined in red thereon.

It was the unanimous opinion of the Board that the aforesaid recommendations of the Superintendent of Parks and Squares be adopted as the course for cyclists on Saturdays, Sundays and holidays, and that cycling be prohibited on any other portion of Golden Gate Park or the Great Highway on the aforementioned days.

Water for Sharp Park from jail site:

The Park Commissioners next discussed the water supply for Sharp Park.

President Fleishhacker stated that he had taken up this matter with the Director of Works on or about March 6, and it was the belief of the Director of Works that by increasing the capacity of the pipe line for the jail site from 6 inches to 10 inches, with a corresponding increase in the pumping equipment, the additional water thereby secured could be used for the proper development of Sharp Park; that the cost of this increase in pipe line and equipment would be approximately $8,616.23.

Commissioner Humphrey then offered the following resolution which was unanimously adopted by the Board:

"WHEREAS, it is the fixed opinion of the Park Commissioners that in order to properly develop and maintain Sharp Park there is required additional water than that which has already been developed therein in the amount of approximately one million gallons per day; and

"WHEREAS, it has been brought to the attention of the Park Commissioners that a water supply is about to be developed for the new jail site immediately east of the easterly boundary of Sharp Park, the development of which said supply includes the construction of a pipe line from the storage lakes of the San Francisco Water Department to said jail site; and

"WHEREAS, it is the opinion of the Director of Public Works, the Sheriff and the Park Commissioners that the most economical means of developing the aforesaid million gallons of water daily will be to provide additional pumping and pipe-line capacity in the new Jail site water supply system and then pipe this additional supply to Sharp Park; and

"WHEREAS, the Director of Public Works has determined that the amount of $8,616.23 will provide the necessary additional pumping and pipe-line capacity for the aforesaid purpose;

"NOW, THEREFORE, BE IT RESOLVED, that the Board of Park Commissioners does hereby appropriate the amount of $8,616.23 from Appropriation Item No. 31-3, for the aforesaid purpose, and requests that said sum be forthwith made available as a part of the contract price of the contract for the continuation of said pipe line to said Jail site."

The President then stated to the Board that he had received a call from Dr. Emma L. Merritt and that she had stated to him that owing to the present financial situation she would be unable to maintain the grounds at Sutro Heights any further. President Fleishhacker further stated that the grounds at Sutro Heights were a source of constant enjoyment to thousands of citizens of San Francisco and that permitting the grounds and gardens to go without maintenance would be detrimental to the best interests of San Francisco and would ultimately prove costly to the City.

Commissioner Humphrey then offered an agreement which he said would be fair to Dr. Merritt and would satisfy all the legal requirements of the City and County of San Francisco:

Merritt that the said Board of Park Commissioners should undertake the expense of keeping the aforesaid property in good condition for the purpose of making the same available for the present and future enjoyment thereof by the people of said City and County;

"NOW, THEREFORE, IT IS AGREED between said Emma L. Merritt and the said Board of Park Commissioners that the said Board of Park Commissioners will undertake the expense of maintaining the said real property granted to the City as aforesaid and will at its own expense keep the same in as good condition as the same has heretofore been kept by said George W. Merritt and Emma L. Merritt, but that the fact of the said Board of Park Commissioners undertaking the upkeep of said property will in no way interfere with the right of said Emma L. Merritt to continue to reside on said property for the remainder of her life and at all times to have free ingress and egress to and from said property; nor shall the fact that the Board of Park Commissioners undertakes the expense and maintenance of said property in any way affect the gift of said property to the City and County of San Francisco nor any other

condition contained in the said deed conveying said property to said City and County, except as said conditions are modified by this agreement.

"IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed on the day and year first above written.

Souvenir music programs:

A letter was presented from Victor F. Pollak Printing Co., seeking permission to distribute souvenir music programs each week in Golden Gate Park.

It was the unanimous opinion of the Board that this request be denied as being contrary to the policy of the Board and for the reason that it would

tend to commercialize park activities.

Bus service-Great Highway: President Fleishhacker stated that he had received a letter from The Gray Line offering to operate buses along the Great Highway to Sloat Boulevard over the same route as that formerly used by the Municipal bus, the frequency in service depending on the traffic demands and the fare between any two points on the above route to be ten cents for adults and five cents for children.

It was the unanimous opinion of the Board that President Fleishhacker be authorized to enter into such agreements as might be necessary to secure this service for the summer months, provided that there be no cost to the City and County of San Francisco or the Board of Park Commissioners involved therein, and that they be held harmless from any liability incurred by The Gray Line incident to the operation of this service.

Reports: Statements of appropriations and special funds, and profit and loss statements as of December 31, 1932, and January 31, 1933, were next presented and ordered filed.

Condition of Conservatory:

President Fleishhacker stated that it had been brought to his attention that the Conservatory in Golden Gate Park, by reason of the rotting of the foundations, girders and posts, had become unsafe and that he had instructed the Superintendent of Parks to close the Conservatory to the public and erect proper barricades to prevent possible accident to citizens.

He stated that he had conferred with Controller Leavy regarding this extremely dangerous situation, which in his opinion constituted an emergency, and that the Controller was of the opinion that at least $15,000 could be spent forthwith to render the old Conservatory once more safe.

Commissioner William F. Humphrey then offered the following resolution which was unanimously adopted by the Board:

RESOLUTION NO. 29 Repairs to Conservatory

RESOLUTION NO. 29

"WHEREAS, the Golden Gate Park Conservatory is in urgent need of repair for the reason that the wood-work, foundations, girders, posts and various structural members of said conservatory have become rotted and decayed to such an extent that certain portions of said Conservatory are in danger of falling and thereby doing great injury to the remaining portions thereof and to any person or persons who might be in the vicinity of said Conservatory when the same might fall; and

"WHEREAS, by reason of the conditions existing in said Conservatory the same has been closed to the public and in order to prevent further damage to said Conservatory it is necessary that the same be repaired and reconditioned forthwith, the estimated cost of which repair and reconditioning will amount to $15,000 and that the repair and reconditioning of said Conservatory constitutes an emergency within the meaning of Section 10 of Ordinance No. 9.0871;

Minutes Adopted:

The minutes of the previous meeting, copies of which were sent to each Commissioner, were duly adopted as the minutes of the regular meeting of April 19, 1933.

Extension of France Avenue through McLaren Park

A letter was presented from the Southern Civic Clubs, asking that France Avenue be extended from Moscow Street to Sunnydale Avenue, through McLaren Park.

Upon the recommendation of the Superintendent of Parks and Squares, this request was unanimously denied, as the extension would create a public road through a proposed park area.

Playground supervision-Alta Plaza:

Letters were next presented from Mrs. Vernon Skewes-Cox requesting supervision of the playground in Alta Plaza, the playground supervisor to be provided by the Recreation Commission.

The Assistant-Superintendent in charge of small parks and squares reported that neither the play area involved nor the number of juveniles utilizing the same were sufficient to warrant the employment of a supervisor. The request was therefore denied by the Board.

Statuto Day Exercises:

President Fleishhacker announced that he had authorized the use of Washington Square for the annual "Statuto Day" celebration.

It was the unanimous opinion of the Board that the action of President Fleishhacker be ratified.

Polo games-Old Stadium:

Drinking fountain for persons and horses:

A request from the San Francisco Society for the Prevention of Cruelty to Animals, for permission to install a drinking fountain for persons and horses on the east side of the equestrian path at the Great Highway, opposite Wawona Street, was next presented.

It was the unanimous opinion of the Board that any fountain on the Great Highway in that vicinity would possibly detract from the appearance of the Highway.

Superintendent McLaren stated that it was his belief that there were other more useful and appropriate sites for this fountain.

It was the unanimous opinion of the Board that the San Francisco Society for the Prevention of Cruelty to Animals be authorized to erect a drinking fountain of the type described, in a location selected by the Superintendent of Parks and Squares, provided that Commissioner Cummings approve the design, that the design and location be approved by the Art Commission, and that no cost be incurred to the Park Commissioners or the City and County of San Francisco in connection with the construction and installation

Lighting system - Sunset Blvd.

Specifications for the Ornamental Lighting System on Sunset Boulevard from the South Drive in Golden Gate Park to Skyline Boulevard, and a letter from John. J. Casey, City Engineer, requesting the approval of these specifications by the Park Commission, were next presented.

It was the unanimous opinion of the Board that the Sunset Boulevard not being a park or part of the park system, but a boulevard constructed wholly on land not dedicated for park purposes, the Board had no power to approve or disapprove the plans and specifications as submitted. Secretary instructed to so notify the City Engineer.

"WHEREAS, the popularity and usefulness of this shelter are constantly evidenced by the many people who continually avail themselves of the protection, rest and recreation afforded by the aforesaid shelter;

"NOW, THEREFORE, BE IT RESOLVED that the Park Commissioners of San Francisco hereby gratefully accept and do, on behalf of the people of San Francisco, express thanks and appreciation for this generous donation of Mrs. Domingo Ghirardelli; and

"BE IT FURTHER RESOLVED that this resolution be spread upon the minutes of this meeting and that a copy of the same be presented to Mrs. Domingo Ghirardelli."

Safety measure-gangplanks at Yacht Harbor:

The following communication was next read to the Board:

"OFFICE OF YACHT OWNERS' ASSOCIATION
of San Francisco Bay, Ltd.
2307 Russ Building
San Francisco May 23, 1933.

"Board of Park Commissioners,
Golden Gate Park,
San Francisco, California.

"Attention Captain Lamb.

"My dear Captain Lamb:

"Confirming my conversation with you, please be advised that the writer has examined the lawn upon the possible liability of a yacht owner for any injuries which might be sustained by reason of any accident, occurring to children particularly, on the various floats.

"Under the law, in my opinion, there is a strong possibility that an owner might be held under what is known as the "attractive nuisance theory", and I have recommended to our members that if they swing a chain against the entrance to the gangplank with a sign such as "No Admittance" or "Dangerous--Stay Off", or some similar sign of uniform character, it might change the legal line of demarcation from an implied invitee to that of a trespasser with a corresponding change of liability of the yacht owner. We believe that if these chains and signs were made uniform it would not affect the appearance in any way.

"Likewise, it has been requested that the Commission permit the name of the boats to be on the plate, as it is frequently quite difficult for people to find the various boats as the majority of them have their name on the stern.

"Would you kindly present this matter to the Commission for their approval?

Yours very truly,

(Signed) Chas. W. Haswell."

It was the unanimous opinion of the Board that in order to prevent a possibility of liability to the City and to yacht owners for accidents arising at Yacht Harbor, the aforesaid request of Mr. Hassell be approved, and the Secretary authorized to confer with him regarding the wording and type of signs to be installed.

The question of the installation of a tablet on the Memorial Tower on Telegraph Hill, when completed, was next discussed.

That recently he had gone into this thoroughly with various representatives of the Press; that members of the staff of the San Francisco Examiner had called on him personally regarding their efforts in increasing attendance at the coming St. Mary's-Santa Clara football game to be played in Kezar Stadium on November 19, 1933.

It was the unanimous opinion of the Board, in view of the extra amount of publicity and advertising devoted to this game by the San Francisco Examiner and in accordance with the resolution of the Board of Park Commissioners of May 15, 1925, that a deviation from the usual fee of 15% of the gross receipts be granted, to wit; that the basic stadium fee for this event for the Park Commissioners would be $2,000; that computing the fee on a basis of 7½% of the gross receipts, the difference between this percentage and the $2,000 basic fee of the Park Commissioners would be awarded to the San Francisco Examiner up to and including the amount realized on the same percentage basis from last year's game. In the event of an increase in attendance and a resulting increase in the 7½% of the gross so computed, the basic stadium fee accruing to the Park Commissioners would be increased by 50% of the resulting increase, the remaining 50% of the resulting increase to be added to the moneys awarded to the San Francisco Examiner's share of the receipts.

RESOLVED unanimously by the Board of Park Commissioners that not to exceed $500 from the moneys available in the Park Fund be spent for the decoration of trees in the park system for the Christmas season, the presentation of the Judean shepherd scene in Lindley Meadow and of a living Christmas tree in plants in front of the Park Conservatory.

Transfer of delinquent tax funds from Park Fund to Emergency Reserve Fund:

The following documents from the office of the Controller of the City and County of San Francisco were next presented: a subsidiary Journal Voucher showing a transfer of $42,926.60 of delinquent taxes from Unencumbered Balance-Park to Unappropriated Balance-Cash Reserve, Controller's Cash Transfer Voucher No. 210 transferring the amount of $5,795.36 from Tax Collector Taxes Fund to the Park Fund, and Controller's Cash Transfer Voucher No. 220 transferring $5,795.18 from the Park Fund to the Cash Reserve Fund, leaving in the Park Fund 18 cents of the apportionment of the delinquent taxes collected in July, August and September of 1933.

President Fleishhacker stated that the transfer of this available cash and funds to be received from delinquent taxes would seriously curtail the funds

available for park maintenance for the remainder of the fiscal year. He read to the Board a statement of the unencumbered balance in the Park Fund as of November 30, 1933, which clearly indicated an almost immediate necessity for curtailment of park maintenance, and stated that this curtailment would necessarily be a reduction in the number of park laborers regularly engaged in the maintenance of grounds, to the extent of one hundred men.

It was the unanimous opinion of the Board that President Fleishhacker be authorized to formally protest the transfer of the aforesaid funds, to employ legal counsel and to take such action legally as might be necessary to adequately safeguard the funds for the proper maintenance of the parks, squares, avenues, grounds and recreation centers under charge of the Commission; that the Park Commissioners, on account of the lack of funds made available by the Controller of the City and County of San Francisco, authorize and instruct Superintendent John McLaren to dispense with the services of as many laborers as might be necessary to cause the expenditures for maintenance of parks, squares, avenues, grounds and recreation centers to conform with the moneys made available therefor by the Controller of the City and County of San Francisco

Air views of park activities:

President Fleishhacker stated that in accordance with Resolution No. 46 of the Park Commissioners, he deemed it proper to secure, when possible, airplane views of different park activities and the right to publish the same.

RESOLUTION NO. 55

Airplane views of park activities:

Auto allowance for starter at Sharp Park Golf Course:

Fog signal on Recreation Pier at Aquatic Park:

The Secretary then presented a letter from Punnett, Parez & Hutchison, stating that the cost of installing a double stroke bell on the Recreation Pier at Aquatic Park would be $770.

It was the unanimous opinion of the Board that as the signal would be purely for the convenience of the ferry company and not required by harbor regulations, all of the park improvements being behind the pier head line, no public funds should be utilized for this installation, and that the placing of this equipment on the Recreation Pier be authorized only provided it is done at the expense of the ferry company and not the City and County of San Francisco.

Charity football games:

The Board next discussed the establishment of a policy on charity football games.

It was the unanimous opinion of the Board that the Stadium fee for the Shrine East-West game to be held in the Kezar Stadium on January 1, 1934, be $500, for the Knights of Columbus charity game to be held on January 21, 1934, $500, and for the St. Mary's-Southern Methodist game to be held on December 9, 1933, $456.

Payment to P.G. & E. for experimental lighting - Palace of Fine Arts:

President Fleishhacker read the following letter to the Board:

"CITY AND COUNTY OF SAN FRANCISCO
Office of Controller

November 9, 1933.

"The Hon. the Park Commission
Golden Gate Park Lodge,
San Francisco, California.

"Gentlemen:

"The resources other than cash in the Park Fund as at June 30, 1933, which were not transferred to the Cash Reserve Fund, are as follows:

Delinquent Taxes 1931-32, and prior	$14,223.37
Penalties on Redemption	$2,873.02
Delinquent Taxes - Unsecured 1931-32 and prior	$1,190.80

"When, and if, the cash from these resources becomes available, it may be used to pay the outstanding obligations of the fiscal years in question.

Yours very truly,

(Signed) H. D. Ross

for Leonard S. Leavy,
CONTROLLER."

He then briefly reviewed the agreement made by the Park Commissioners with the Pacific Gas & Electric Co. at a called meeting of the Board held April 8, 1932. He stated that the Park Commissioners at a regular meeting of the Board held December 2, 1932, had authorized the payment of $6,000 to the Pacific Gas & Electric Co., leaving a balance of $13,037.85 to be paid when the experimental lighting at the Palace of Fine Arts was completed. That the principal outstanding obligation referred to in the Controller's letter is this payment of $6,000 to the Pacific Gas & Electric Co. That it was evident from the contents of the Controller's letter that the time of payment thereof was vague and indefinite. That in order to prevent

possible future litigation and the closing of the night tennis courts at the Palace of Fine Arts he recommended the immediate payment of $6,000 to the Pacific Gas & Electric Co.

RESOLUTION NO. 57 Payment - Palace of Fine Arts lighting:

RESOLUTION NO. 57
